

Linco SWM | General Information

Until now there has been only two types of windows that could be successfully fitted with Window Automation Equipment - Louvres and Awnings (Hoppers).

Linco's new Sliding Window Motor has just changed that!

With a powerful 32mm x 32mm square drive actuator that can be concealed to blend in with all available sliding window manufacturers frames.

It can open commercial and domestic windows as large as 3000mm wide and is compatible with all of our Intelligent Control Systems and Smoke Ventilation Systems.

5 year warranty is standard with an extended 10 year warranty available.
