

Linco S200 | General Information

One of the new generation of linear actuators, the S200 series has a slimline design that will fit right in to any home. However its strength and reliability means that it will be equally suitable for the most rigorous of commercial or industrial applications.

The actuator is housed within the same casing as the stroke, which is the deviation from previous actuators available. This is what has created the clean lines of the S200. A second detail to consider is that the casing keeps dust and other debris away from all the mechanisms of the 500N actuator. Meaning that the cleaning of this

very reliable actuator, is a lot easier.

The standard finish is an anodised aluminium however we can colour match the casing to suit the design.

Designed for use on louvre windows, skylights, shutters and sliding windows the Linco S200 series is very versatile motor. It is even capable of functioning outside to control external shutter systems as it has an IP rating of 65. With simple connection to torque arm the use of this actuator can not only be attractive but also a cost effective method to automate multiple high level windows.

Linco S200 | Features

- Slimline design
- Compact size
- Standard anodised aluminium casing
- Simple installation
- Smooth actuator operation
- Compatible with all window frame types
- Various control options
- Stroke length of up to 762mm

Linco S200 Specifications

VOLTAGE

12vDC

LOAD CAPACITY - PUSH/PULL

500N/500N

LOCK FORCE

3000N

CURRENT UNDER LOAD

3A max.

STROKE LENGTH

75mm to 762mm

STROKE SPEED AT FULL LOAD

15mm/sec

OPERATING TEMPERATURE RANGE

-26°C to 65°C

LIMIT SWITCH

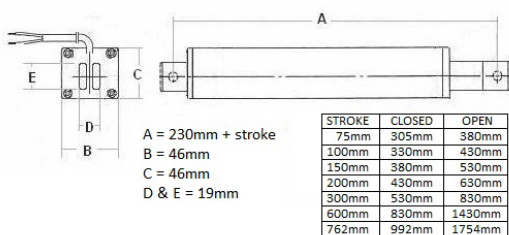

FACTORY SET

IP GRADE

IP65

ELECTRIC OVERLOAD CUT OFF

BUILT IN

Linco S200 Specification Text

The louvre operating system is to be the Linco S200 With predetermined stroke length and 2 in-built micro limit switches.

Actuators are to have sintered brass gear drives and be capable of performing a minimum of 10,000 strokes.

The actuators are available from Unique Window Services,
(07) 3265-5771.
